## The Challenge

- ◆ Developing a new product to replace the company's existing model.
- ◆ Taking full external ownership for the application engineering, design and development.
  - ◆ Identifying the necessary execution model for turnkey project delivery.
  - ◆ Managing entire life cycle of the project.
- ◆ Executing all conventional pen paper stuff in application.

---

# Modules

**1. Purchase management**

**2. POS (Point Of Sale)**

**3. Expense management**

**4. Credit management**
